

NLA eClips Ireland Licence Fee Tariff April 2017

Rates to apply from **April 1st 2017** unless and until amended pursuant to the terms of the eClips Ireland Licence. All prices exclude taxes, which are payable in addition where applicable.

Capitalised terms have the meanings given to them in the eClips Ireland Licence unless otherwise stated.

1.1 The Licensee shall pay the Licensor for each Client receiving Links the following fees calculated as the number of Link(s) delivered multiplied by the monthly average number of Permitted Users of that Client:

Average number of Permitted Users	Price per Link delivered (euro)
Up to and including 3 Permitted Users	€ 0.36
Each additional Permitted User	€ 0.12

1.2 For these purposes, the monthly average number of Permitted Users for a Client shall be calculated by adding the number of Permitted Users on the 15th day of the month to the number of Permitted Users on the last day of the month, and dividing this by two.

Worked Examples:

- Client A has 8 Permitted Users on the 15th day of the month, and 20 Permitted Users at the end of the month and receives 40 Links in a month:

$$8 + 20 \div 2 = \text{average } 14 \text{ Permitted Users.}$$

$$\text{Calculation: } 14 \times 40 \times \text{€}0.12 = \text{€}67.20$$

- Client B has 6 Permitted Users and receives 50 Links in a month.

$$\text{Calculation: } 6 \times 50 \times \text{€}0.12 = \text{€}36.00$$

- Client C has 2 Permitted Users and receives 30 Links in a month.

$$\text{Calculation: } 30 \times \text{€}0.36 \text{ (i.e. minimum fee)} = \text{€}10.80$$
