

NLA – International Media Monitoring Licence Non – UK titles covered

FIBEP and AMEC members report growing interest in international coverage. Creating high quality international coverage of major print titles is never easy. NLA has been working hard over the past year to simplify matters.

NLA is pleased to confirm the following content is now available to IMMO users on the IMMO licence terms and prices, in addition to the core UK rights and content. Normal IMMO licence and end user pricing applies in each case. There is no additional data access fee.

USA

International New York Times

Boston Globe (limited to UK, NI, Channel Islands and the Isle of Man)

Chicago Tribune

France (subject to CFC approval)

Apart from International New Work Times, French content and Expansion most additional content is in eClips Full Page format (you would make your own clippings).

Normal IMMO licence and end user pricing applies in each case. There is no data access fee.

NLA expects further additions in the coming months.
